REGISTER OF RAINFALL IN 1910

FORM A2.
BRITISH RAINFALL
10 JAN 1911

Kept at *The Laurels, Brecon S. Wales.*
in the County of *Brecknock*
by *Charles J. E. Large*

Pattern
RAIN GAUGE Diameter of top *5* in.
Height of top above Ground *1* ft. *0* in.
" " " Sea Level *492* ft.
Time of Observation *9 A.M.*
Nearest Railway Station { Name *Brecon*
Distance *4 1/2* Direction *W.*

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "Rules for Rainfall Observers," sent post-free on application to Dr. H. R. MILL, 62, Camden Square, London, N.W.

Jan. 1, following.

REGISTER OF RAINFALL IN 1910

FORM A2.
BRITISH RAINFALL.
31 JAN 1911

Kept at New Inn, Brecon

in the County of Brecon

by Mr. H. Williams

Pattern
RAIN GAUGE { Diameter of top _____ in.
Height of top above Ground _____ ft. _____ in.
" " " Sea Level _____ ft.
Time of Observation _____
Nearest Railway Station { Name _____
Distance _____ Direction _____

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "Rules for Rainfall Observers," sent post-free on application to Dr. H. R. MILL, 62, Camden Square, London, N.W.

REGISTER OF RAINFALL IN 1910

Kept at Tyn-y-berllan
in the County of Breconshire
by W. W. Baldock Fy M.B.

Pattern British Rainfall
RAIN GAUGE Diameter of top 5 in.
Height of top above Ground 1 ft.
" " " Sea Level 430 ft.
Time of Observation 9 a.m.
Nearest Railway Station { Name Builtwell
Distance 1/2 Direction N.E.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "Rules for Rainfall Observers," sent post-free on application to Dr. H. R. MILL, 62, Camden Square, London, N.W.

REGISTER OF RAINFALL IN 1909

Kept at Buckland Gardens.

in the County of Breson.

by A. J. Keen.

Pattern
RAIN GAUGE Diameter of top 5 in.
Height of top above Ground 1 ft. 1 in.
" " " Sea Level 179 ft.
Time of Observation 8 a.m.
Nearest Railway Station { Name Talybont-on-Clak
Distance 2m. Direction W.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "Rules for Rainfall Observers," sent post-free on application to Dr. H. R. MILL, 62, Camden Square, London, N.W.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "Rules for Rainfall Observers," sent post-free on application to Dr. H. R. MILL, 62, Camden Square, London, N.W.

Distance.

Direction.

Church

Station

If you know of any records of rainfall not quoted in *British Rainfall*, please mention the stations and the observers' names.

REMARKS ON THE YEAR.

There was a marked deficiency of $\frac{1}{2}$ in Jan & Feb. followed by a very wet March. April was above average but May was the driest month for many years only .31 being recorded. July also very much below, the rainfall for the four ^{last} months was the meagre for many years. very below that of 1902. Nov was wet, but a dry Dec. makes the year a fall a very short one. over 9 in below average.

FORM A2.
BRITISH RAINFALL.
-5 JAN 1911

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "Rules for Rainfall Observers," sent post-free on application to Dr. H. R. MILL, 62, Camden Square, London, N.W.

FORM A1.
BRITISH RAINFALL.
- 5 JAN 1911

Kept at Llysduan
in the County of Brecon
by C. Knabbe Hewelyn

8.

Pattern
RAIN GAUGE { Diameter of top 5 in.
Height of top above Ground 1 ft. 3 in.
" " " Sea Level 646 ft.
Time of Observation 9 a.m.
Nearest Railway Station { Name Newbridge on Wye
Distance 1 1/2 Direction E

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "Rules for Rainfall Observers," sent post-free on application to Dr. H. R. MILL, 62, Camden Square, London, N.W.

Jan. 1, following.

REGISTER OF RAINFALL IN 1910

FORM A2.
BRITISH RAINFALL.
25 JAN 1911

Kept at Knuadd Reservoir

in the County of Brecknock

by Thos F Harvey Esq. C.E.

Pattern
RAIN GAUGE Diameter of top 5 in.
Height of top above Ground 1 ft. 0 in.
" " " Sea Level 1462 ft.
Time of Observation 9 a.m.
Nearest Railway Station Name _____
Distance _____ Direction _____

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "Rules for Rainfall Observers," sent post-free on application to Dr. H. R. MILL, 62, Camden Square, London, N.W.

REGISTER OF RAINFALL IN 1910

25 JAN 1911
BRITISH RAINFALL
FORM A2

Kept at Newadd Reservoir
in the County of Brecknock
by Thos F Harvey Esq/ C.E.

Pattern
RAIN GAUGE Diameter of top 5 in.
Height of top above Ground 1 ft. 0 in.
" " " Sea Level 1487 ft.
Time of Observation 9 a.m.
Nearest Railway Station { Name _____
Distance _____ Direction _____

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "Rules for Rainfall Observers," sent post-free on application to Dr. H. R. MILL, 62, Camden Square, London, N.W.

REGISTER OF RAINFALL IN 1910

FORM A2
BRITISH RAINFALL
25 JAN 1911

Kept at Kenadd Reservoir
in the County of Brecknock
by Thos. F. Harvey Esq. C.E.

Pattern
RAIN GAUGE Diameter of top 5 in.
Height of top above Ground 1 ft. 0 in.
" " " Sea Level 1524 ft.
Time of Observation 9 a.m.
Nearest Railway Station { Name Torpantau
Distance Direction

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "Rules for Rainfall Observers," sent post-free on application to Dr. H. R. MILL, 62, Camden Square, London, N.W.

Jan. 1, following.

50 Daily REGISTER OF RAINFALL IN 1910

FORM A2
BRITISH RAINFALL
25 JAN 1911

Kept at Pentwyn Reservoir
in the County of Brecknock
by Thos F. Harvey Esq^r C.E.

Pattern
RAIN GAUGE Diameter of top 5 in.
Height of top above Ground 1 ft. 0 in.
" " " Sea Level 1120 ft.
Time of Observation 9 a.m.
Nearest Railway Station Name
Distance Direction

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "Rules for Rainfall Observers," sent post-free on application to Dr. H. R. MILL, 62, Camden Square, London, N.W.

Distance 1/80 Direction SW

FORM A2.
BRITISH RAINFALL
-6 JAN 1911

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "Rules for Rainfall Observers," sent post-free on application to Dr. H. R. MILL, 62, Camden Square, London, N.W.
